Important Public Notice

Due to the seriousness of the virus pandemic that is spreading throughout world and within our doorstep, we want to encourage residents of Nightmute not to travel to nearby villages and encourage residents not to fly to Bethel.

We must keep our families confined to ourselves within our homes and not allow family members visiting anyone else for the next two weeks.

Any socializing is discouraged: gambling, fiddling dances, Eskimo dances and church going are some of the few.

We must wash our hands with soap continually even though the virus is distant away and we are at a confined place.

Local business stores: Chinuruk, Inc.; Enterprise should keep customers limited and keep at distance as much as possible. If you ware getting water, throwing your trash to the landfill or going to the lagoon, keep at distance with anyone as much as possible.

NVN will be closed for two weeks. If you should need anything, call Nick Tom at 647-6450.

More importantly, we must keep our faith strong and pray for a medicine that will care everyone in the world.
