RE: Precautionary Measures for COVID-19

The Native Village of Eek has implemented the following precautionary measures for the community of Eek for the safety & wellbeing of the community. If one person has COVID 19 and is in the village and does not quarantine, the virus could easily spread to the whole community. The whole community could get sick and we do not have essential health care facility to address the virus. **THIS IS A SERIOUS MATTER THAT WE ARE DEALING WITH AS OF TODAY!**

- If you traveled to Bethel or any other community or even the hospital you **HAVE TO SELF QUARANTINE** with the entire members of your household. You and family members have to be quarantined for 14 days.
- Practice social distancing / stay at home as much as possible. Social distancing is 6 feet.
- Travel restrictions -only necessary travel in & out of community (hospital emergencies/essential travel)
- Only residents of Eek are allowed in and out of the community (all non-residents will be asked to return home, all non-residents are not to enter without written permission)
- Non-residents will not be allowed to go store (only to purchase fuel if necessary)
- If you have the following symptoms -coughing, fever & shortness of breath please stay at home and self-quarantine with all the members of your household
-

If you need any assistance while on quarantine please contact Stella @ 536-2296 and she will find assistance.

George Alexie, President
